

■■ AegisAI Incident Report

Incident #592

Status: ■ OPEN

Field	Details
Date/Time	2026-06-16 18:48:46
Status	OPEN

■ Raw Logs

CPU usage: 20%
Network traffic: 100 Mbps
Disk I/O: 5 MB/s
Memory utilization: 80%

■ Anomaly Detection

Type: High CPU Usage | Severity: MEDIUM

■ Root Cause Analysis

Unoptimized database query causing excessive CPU utilization due to inefficient indexing and querying

■■ Remediation Actions

Notify the DBA team about the anomaly and request immediate attention to optimize the database query.

■ Resolution Notes

No notes provided
